

Farm Update: A Brand New Field is Sprouting

Exciting news from Angeline Farm!

We're thrilled to announce the opening of our third field. As we embark on this new chapter, our focus is on nurturing the soil to ensure optimal growth and sustainability. Currently, we're in the process of amending the soil with nutrient-rich compost and constructing beds to provide the perfect environment for our crops to flourish.

In line with our commitment to organic farming practices, we're gearing up to sow cover crops for the summer season. These cover crops not only contribute to building organic matter in the soil but also play a vital role in enhancing nitrogen levels and activating soil biology. Among the varieties we'll be planting are cowpeas, sunn hemp, Sudan grass, and millet.

COFFEE WITH THE FARMERS

At the Wild Thyme Café & Market

Saturdays 10 a.m. - 12 p.m.

Join us every Saturday morning for an enriching and delicious experience at the Angeline Café! Ask our farmers any questions you have and discover stories as you engage in lively conversations about farming practices and sustainability. While you're here, every **third Saturday** of the month, the farmers will be giving an in-depth tour of the farm!

Learn more about the crops growing within the community and discover homegrown flavors with vegetable and fruit tastings based on the season's harvest! Whether you're a seasoned local or a curious newcomer, there's something for everyone at the Wild Thyme Café & Market.

A Bouquet of Possibilities

Our fields and showcase garden are bursting with vibrant life as we cultivate a diverse array of flowers. Take home their beauty with our bouquets available for purchase! We mix in herbs for a unique look as well.

Flower Varieties

- Zinnias
- Sunflowers
- Cosmos
- Snap Dragons
- Buckwheat
- Bachelor Buttons
- Borage
- Nasturtiums
- Marigolds

Did You Know:

Pollinators Play a Vital Role For Vegetables

We are growing various flowers in the showcase garden and fields to attract pollinators for vegetables to create an overall healthy environment and ecosystem. Here is a list of vegetables currently thriving at the Angeline Farm!

- Sweet and Hot Peppers
- Tomatoes
- Eggplants
- Pickling Cucumbers
- English Cucumbers
- Squash
